Illustrative Example

Mr Aggarwal, a healthy individual, aged 35 years, opts for Reliance Nippon Life Prosperity Plus plan with an annual premium of ₹5,00,000. He chooses a Policy Term of 10 years and opts to pay premiums annually for the entire term (Regular Pay option). He opts for Base Sum Assured of ₹50,00,000 under the plan. He chooses the Self-Managed Option with 100% allocation in Life Equity Fund 3 throughout the Policy Term.

Let's look at the scenarios after Mr Aggarwal invests in this Policy:

Scenario 1:

Mr Aggarwal is aware that his investments in Reliance Nippon Life Prosperity Plus plan will be enhanced through Loyalty Additions from as early as the end of the sixth Policy year.

He also understands the benefit of staying invested till the end of the Policy Term as his Fund Value will further be enhanced through Maturity Addition and Return of Policy Administration Charges at maturity. The expected benefits under this plan are as follows:

Maturity Benefit**

Fund Value @ 8% p.a. : ₹72,82,495
Fund Value @ 4% p.a. : ₹58,47,753

The above Maturity Benefit includes accrued Loyalty Additions, Maturity Additions & Return of Policy Administration Charges

Premiums paid during the Policy Term

Premiums Paid (₹)		Fund Value at Maturity** (₹)	
Annual Amount	Total amount paid	@8% p.a.	@4% p.a.
₹5,00,000	₹50,00,000	₹72,82,495	₹58,47,753

**The values shown above are for illustration purpose only, based on assumed gross investment returns of 8% & 4% per annum (p.a.) on unit fund. These are not guaranteed returns and are not the upper or lower limit of what one might get in this Policy.

Scenario 2:

In the unfortunate event of Mr. Aggarwal's demise, his wife, who is the nominee under this plan, receives the Death Benefit which is highest of the Base Sum Assured or Base Fund Value or 105% of the premiums paid.

Below is an example for death benefits in different years:

Death in Year/Assumed rate of return	Death Benefit**	
	@8% p.a.	@4% p.a.
5	₹50,00,000	₹50,00,000
9	₹62,10,519	₹50,84,275

** The values shown above are for illustration purpose only, based on assumed gross investment returns of 8% & 4% p.a. on unit fund. These are not guaranteed returns and are not the upper or lower limit of what one might get in this Policy.

The Fund Value denoted above is the expected fund value of Life Equity Fund 3 at the end of the year (before payment of next year's premium); this might be different depending on exact date of death of Life Assured. Fund Value will be calculated as per the prevailing NAV as on the date of death.

Investment Options

Reliance Nippon Life Prosperity Plus offers you the following Investment Options to manage your funds. You may only opt for one Investment Option at any given point of time:

1. Self-Managed Option

This option enables you to manage your investments actively. Under this investment option, you manage your investments by choosing amongst the seven investment funds in proportions of your choice. You have the option of switching amongst these funds and may choose premium redirection for your future premiums depending on your changing risk appetite and market conditions.

The details of the various investment funds are given in the table below:

Fund Name	Investment Objectives	Risk Profile	Asset Class	Asset Allocation Range (%)
Life Large Cap Equity Fund (SFIN: ULIF07101/12/19LL ARGCAPEQ121)	To generate consistent long-term performance through exposure to predominantly large cap equities with particular focus on companies having demonstrable corporate governance, built-in competitive advantage in their business model and good track record in financial performance. Further, we recognize that there is significant probability of negative returns in the short term. The risk appetite is 'high'. In adverse situations investments in money market securities would be increased to protect policyholders' long term interests and returns.	High	Debt Securities	0-10
			Money Market Instruments including Net Current Asset and Mutual Funds (including liquid mutual funds)	0-40
			Equity and equity related instruments including ETFs	60-100

Fund Name	Investment Objectives	Risk Profile	Asset Class	Asset Allocation Range (%)
Life Equity Fund 3 (SFIN:ULIF04201/01/ 10LEQUITYF03121)	Provide high real rate of return in the long term through high exposure to equity investments, while recognizing that there is significant probability of negative returns in the short term. The risk appetite is 'high'.	High	Money market instruments	0 – 25
			Equities	75 – 100
Life Pure Equity Fund 2 (SFIN:ULIF04601/01/ 10LPUEQTY02121)	The investment objective of the Pure Equity Fund is to provide policyholders high real rate of return in the long term through high exposure to equity investments, while recognizing that there is significant probability of negative returns in the short term. The risk appetite is 'high'.	High	Money market instrument	0 – 40
			Equities in sectors other than banks and non-banking financial companies, breweries, distilleries, alcohol based chemicals, cigarettes, tobacco, entertainment, leather, sugar and hatcheries	60 – 100
Make in India Fund (SFIN: ULIF06924/03 15LMAKEINDIA121)	The investment objective of the fund is to provide high returns in the long term through exposure to equity investments in the sectors related to industrial activity. The risk appetite is 'high'.	High	Debt securities	0 – 20
			Money market instruments, Mutual Funds, Bank Deposit	0 – 20
			Equities	60 – 100
Life Balanced Fund 1 (SFIN:ULIF00128/07/ 04LBALANCE01121)	The investment objective of the fund is to provide investment returns that exceed the rate of inflation in the long term while maintaining a low probability of negative returns in the short term. The risk appetite is defined as 'low to moderate'.	Low to Moderate	Debt securities	60 – 100
			Equities	0 – 40
			Money market instruments	0 – 25
Life Corporate Bond Fund 1 (SFIN:ULIF023 1006/08LCORBONDO 1121)	Provide returns that exceed the inflation rate, while taking some credit risk (through investments in corporate debt instruments) and maintaining a moderate probability of negative return in the short term. The risk appetite is 'low to moderate'.	Low to Moderate	Money market instruments	0 – 25
			Corporate bonds/ debentures and other debt instruments excluding money market instruments	75 – 100
Life Money Market Fund 1 (SFIN:ULIF02 91006/08LMMONMRK T01121)	Maintain the capital value of all contributions (net of charges) and all interest additions, at all times. The risk appetite is 'low'.	Low	Money market instruments	100

a) Systematic Transfer Plan (STP):

Systematic Transfer Plan (STP) is available only for the Self-Managed Option and for investments to be allocated in Life Equity Fund 3. This feature provides you with an option to enter into the equity market at different times and at different levels. This has an effect of averaging out the risks associated with the equity market, optimizing the overall risk to your investment portfolio.

STP is only applicable during the Premium Payment Term and allows you to invest the premium or portion of Premium or Top-ups meant for Life Equity Fund 3 initially into Life Money Market Fund 1 and then systematically transfer (i.e. automatically switch) an amount every week into Life Equity Fund 3. On the date of realization of the installment premium cheque, units will be allocated in the Life Money Market Fund 1 for the portion of premium meant for Life Equity Fund 3. On each of the next four Systematic Transfer dates one-fourth of the STP units will be transferred to the Life Equity Fund 3 automatically. The STP dates will be 7th, 14th, 21st & 28th of every month.

STP can be selected or de-selected, any number of times, at Policy inception or at any subsequent Policy anniversary. Once the option is selected every contribution for Life Equity Fund 3 in the future will be as per STP until the same is de-selected by the policyholder, upon which the future contribution meant for Life Equity Fund 3 will be directly invested into Life Equity Fund 3.

No further switches are allowed during STP period in respect of the fund amount under the STP option.

There is no charge for the first time you opt for STP. For every subsequent selection of STP, there will be a fixed charge of ₹100 per selection. There are no charges for cancellation of the STP option. Once STP option is selected it cannot be cancelled with respect to the amount already lying in the Life Money Market Fund 1.

2. Auto-Managed Option

This option is suitable for you if you want automated options to manage your investments. Under Auto-Managed Option you can choose between Target Maturity Option and Life Stage Option. You can opt in or out of these options any time during the Policy Term. Your entire fund that includes existing funds and renewal/top-up premiums will be invested as per the selected auto-managed option.

a) Target Maturity Option (Based on outstanding term of the Policy)

When you plan for long term goals, it may be beneficial to initially invest a higher proportion in equity to enjoy higher potential returns. However, as you approach the date of fulfillment of your goals, you may want to ensure safety of your investments through a higher allocation to debt.

How does Target Maturity Option work?

- Allocation based on term of your policy

Under this option, your investments will be allocated between Life Equity Fund 3 and Life Corporate Bond Fund 1. During the first five Policy years, 100% of the allocation will be in Life Equity Fund 3. From the sixth Policy year, any renewal premium or Top-up that you invest will be allocated between Life Equity Fund 3 and Life Corporate Bond Fund 1 based on the allocation schedule for that Policy year.

From the sixth Policy year, the allocation of your investments in Life Equity Fund 3 shall be based on the below formula (rounded down to 2 decimal places).

$$\text{Allocation in Life Equity Fund 3} = \frac{\text{Outstanding Policy Term} - 1}{\text{Policy Term} - 5}$$

The balance shall be allocated in the Life Corporate Bond Fund 1.

For Policy Term 10 years and 15 to 20 years, the allocation between Life Equity Fund 3 and Life Corporate Bond Fund 1 shall be as below:

Policy Term 10 years			Policy Term 15 years		
Outstanding Policy Term in years	Life Equity Fund 3	Life Corporate Bond Fund 1	Outstanding Policy Term in years	Life Equity Fund 3	Life Corporate Bond Fund 1

- **Rebalancing from 6th Policy year**

Avoid the hassle of switching your funds and actively managing your investments, this strategy rebalances the equity and debt ratio automatically, without any manual intervention.

As the Policy nears maturity we will re-distribute your investments at the start of each Policy year in a fixed ratio which depends upon the years to the maturity of the Policy. Starting from sixth Policy year your Fund Value (Base Fund Value or Top-up Fund Value as applicable) shall be rebalanced as necessary based on the allocation for that year as defined in the above formula.

Thereafter, the proportion of your investment in Life Equity Fund 3 will reduce in equal proportion and get transferred to Life Corporate Bond Fund 1 to ensure systematic transfer of your investments to a safer asset as you approach the maturity of the Policy.

This strategy systematically reduces your allocation in equity as your Policy nears maturity. This will help you to mitigate any downside risk in the equity market later in the Policy Term.

b) Life Stage Option

Your financial needs evolve over time and keep changing with your life-stage. For instance, your goals will change post marriage as responsibilities increase or your goals may be very different when you are nearing retirement. Hence, it is important that your Policy adapts itself to your changing needs.

If you need a systematic approach based on financial planning which adjusts your investments based on your age, you can opt for the Life-Stage Option.

How does the Life Stage Option work?

- **Age based allocation**

At the inception of your Policy, your investments will be distributed between two funds, Life Equity Fund 3 and Life Corporate Bond Fund 1, based on attained age. As you move from one age band to another, the renewal premiums and top-up premiums will be allocated based on attained age.

The age-based allocation distribution is shown in the table below:

Attained age of Life Assured (years)	Life Equity Fund 3	Life Corporate Bond Fund 1
1 – 10	90%	10%
11 – 20	80%	20%
21 – 25	75%	25%
26 – 30	70%	30%
31 – 35	65%	35%
36 – 40	60%	40%
41 – 45	55%	45%
46 – 50	50%	50%
51 – 55	45%	55%
56 – 60	40%	60%
61 – 65	35%	65%
66 – 70	30%	70%

- **Rebalancing**

On a quarterly basis, units shall be rebalanced as necessary to achieve the above proportions of the Fund Value (Base Fund Value or Top-up Fund Value as applicable) in the Life Equity Fund 3 and Life Corporate Bond Fund 1. The re-balancing of units shall be done on the last day of each Policy quarter.

The above proportions shall apply until the last ten quarters of the Policy are remaining.

- **Safety towards the end of your Policy Term:**

As your Policy nears its maturity date, it is important that short-term market volatility does not affect your accumulated savings. In order to achieve this, your investments will be systematically transferred to Life Money Market Fund 1 in ten installments in the last ten quarters of your Policy.

The policyholder has the flexibility to change his allocation within Auto-Managed Option from Target Maturity Option to Life Stage Option and vice-versa.

3. Trigger Portfolio Option

This option is suitable if you want to maintain a pre-defined asset allocation even in fluctuating market conditions. The potential gains from the upswings in financial markets are booked safely in liquid funds and the desired asset allocation is maintained.

The invested premium is allocated in a ratio of 3:1 across two funds, Life Equity Fund 3 and Life Corporate Bond Fund 1. A trigger event is defined as at least 10% upward movement in the unit price of Life Equity Fund 3, since the previous rebalancing or the inception of the Policy, whichever is later. On occurrence of the trigger event, any value of units in Life Equity Fund 3 in excess of 3 times the value of units in Life Corporate Bond Fund 1 is considered as gains and switched to Life Money Market Fund 1 (a liquid fund with low risk) by cancellation of appropriate units from the unit balance of Life Equity Fund 3. This shall ensure that the ratio of funds in Life Equity Fund 3 and Life Corporate Bond Fund 1 is rebalanced to the initial ratio of 3:1 while the gains have been secured in the Life Money Market Fund 1. In case there are no gains, funds in the Life Equity Fund 3, Life Corporate Bond Fund 1 and Life Money Market Fund 1 are redistributed in the ratio of 3:1 in Life Equity Fund 3 and Life Corporate Bond Fund 1 on a quarterly basis.

The policyholder may opt in or out of this investment strategy at any time during the Policy Term and as many number of times during the Policy Term, subject to the limit on number of changes in Investment Options in a Policy year. Your entire fund, that includes existing funds and renewal/top-up premiums will be invested as described above.

Benefits in detail

Maturity Benefit

On survival of the Life Assured till the end of the Policy Term, the maturity benefit will be payable. The Maturity Benefit shall be the aggregate of:

- a. Total Fund Value, which is the sum of the Base Fund Value and Top-up Fund Value, if any
- b. Maturity Additions
- c. Return of Policy Administration Charges at maturity

You will have the option to receive the Maturity Benefit as a lump sum or as a structured payout using Settlement Option. (Please refer to the 'Other Features' section for details on Settlement Option).

Death Benefit

In unfortunate event of death of the Life Assured, while the Policy is in force, we will pay to the nominee(s)/ beneficiary(s) the highest of:

- Base Sum Assured net of all 'Deductible Partial Withdrawals/Deductible payments under Systematic Withdrawal Option', if any from the Base Fund Value; and
- Base Fund Value; and
- 105% of the total premiums paid (excluding Top-up premiums) less 'Deductible Partial Withdrawals/ Deductible payments under Systematic Withdrawal Option' (if any) from the Base Fund Value

In addition to this, provided the policyholder has a Top-up Fund Value, we will also pay for every Top-up premium, the highest of:

- Top-up Sum Assured; and
- Top-up Fund Value; and
- 105% of the total Top-up premium paid

'Deductible Partial Withdrawals/Deductible payments under Systematic Withdrawal Option' are not applicable in case of 'Top-up Sum Assured'.

The 'Deductible Partial Withdrawals/Deductible payments under Systematic Withdrawal Option' mentioned above will be the Partial Withdrawals/payments under Systematic Withdrawal Option made during the last two years immediately preceding the date of death of the Life Assured.

On payment of the Death Benefit, the Policy shall terminate, and no other benefits shall be payable thereafter.

Loyalty Additions

Loyalty Additions of 0.7% of the average daily Base Fund Value of the preceding 12 months are added in the form of additional units to the Policy for in-force and paid-up policies, at the end of every Policy year starting from the 6th Policy year till the penultimate Policy year.

Loyalty Additions will be allocated by creating additional Units across Investment Funds, in the same proportion as the value of total units held in each fund at the time of allocation.

Once Loyalty Additions are credited, the same cannot be revoked by the Company and they will be payable on death, surrender, Partial Withdrawal or at maturity.

The above percentage is guaranteed but not the total payout as it will be dependent on average of daily fund value in preceding 12 months at the time of allocation of Loyalty Addition.

No Loyalty Additions will be payable for the Top-up Fund Value.

Maturity Addition

1.4% of the average daily Base Fund Value of the preceding 12 months will be allocated at maturity as Maturity Addition.

Maturity Addition will be added to the fund for all in-force and paid-up policies. Maturity Addition will be allocated by creating additional Units across Investment Funds, in the same proportion as the value of total units held in each fund at the time of allocation.

The above percentage is guaranteed but not the total payout as it will be dependent on average of daily fund value in preceding 12 months at the time of allocation of Maturity Addition.

No Maturity Addition will be payable for the Top-up Fund Value.

Return of Policy Administration Charge (ROPAC) at Maturity

At maturity, the total amount that has been deducted as Policy Administration charges over the tenure of the Policy shall be added back to the Total Fund Value for in-force policies.

The amount of ROPAC will be added post the crediting of Maturity Addition.

The amount of ROPAC at maturity will be allocated by creating additional Units across Investment Funds, in the same proportion as the value of total units held in each fund at the time of allocation.

In case of a paid-up Policy and policies where Premium Payment Term is reduced through Policy alterations, proportionate Policy Administration Charges shall be added back to the Fund Value at maturity. Such proportionate charge will be determined as:

Total Policy Administration Charge deducted till maturity multiplied by Total number of premiums paid divided by the original number of premiums payable at inception under the Policy'

In case the Policy is surrendered before maturity, ROPAC at maturity shall not be applicable.

Other features

Top-ups

Top-up premiums can be accepted only if all due premiums under the Base Policy have been paid. The minimum Top-up premium at any time is ₹25,000. The total Top-up premiums at any point in time shall not exceed 100% of the total Base Premiums paid till that time. Top-up premium is not allowed during the last five years of the Policy Term.

The Top-up Sum Assured is calculated as 1.25 times the Top-up premium paid.

Every Top-up premium will be subject to a lock-in period of 5 years from the date of payment of the Top-up premium and cannot be withdrawn during the lock-in period except in case of complete surrender from the Policy.

Partial Withdrawals from the Base Policy and Top-ups

- You can make Partial Withdrawals from the base Fund Value after the completion of five Policy years or on attainment of age 18 by the Life Assured, whichever is later.
- Partial Withdrawals from the Top-up Fund Value are available only after five years from the date of payment of the respective Top-up Premium or on attainment of age 18 by the Life Assured, whichever is later.
- The minimum amount of Partial Withdrawal is ₹10,000 and the maximum Partial Withdrawal in a Policy year (including withdrawals made under Systematic Withdrawal Option) shall not exceed 25% of the Total Fund Value (i.e. Base Fund Value plus Top-up Fund Value) at the beginning of the Policy year.
- However, at any point of time during the Policy Term, the minimum fund balance after the Partial Withdrawal under the base Policy should be at least equal to 125% of Annualized Premium or 25% of Single Premium. In case the Fund Value is lower than the specified limits, Partial Withdrawal will not be allowed.
- Partial Withdrawals will be made first from the Top-up Fund Value, as long as it supports the Partial Withdrawal and then from the Base Fund Value built up from the Base Premiums. Top-up Sum Assured shall not be reduced due to Partial Withdrawals made from Top-up Fund Value.
- The Base Sum Assured will be reduced to the extent of Partial Withdrawals made from the Base Fund Value during the last two years immediately preceding the date of death. Two Partial Withdrawals in a Policy year are free. On every subsequent Partial Withdrawal, there is a Partial Withdrawal Charge of ₹100 that will be deducted from the fund withdrawn. Any unutilized Partial Withdrawal cannot be carried forward to another year.

Systematic Withdrawal Option (SWO)

This option will only be available with the Single Pay or Limited Pay option for Premium Payment Term of 10 years and above. Systematic Withdrawal Option is an automated withdrawal facility which provides you the option to withdraw a percentage/amount of your fund. This facility is designed to ensure you can avail regular liquidity while also providing you with a life cover till the end of the Policy Term.

You may choose to start your SWO payouts any time after the completion of the Premium Payment Term (PPT) or 10 Policy years (whichever is later) and continue to receive the payouts till the end of the Policy Term.

Once you opt for SWO, the SWO payouts will be processed on the 7th day of that month (for request received before the 7th of the month) or the subsequent month (for request received on or after the 7th of the month) as per the frequency of payout that is opted for.

Under this facility, you will have to choose the following:

- Payout amount/Payout percentage which will be redeemed from the Top-up Fund Value as long as such Fund Value supports the SWO and subsequently the SWO will be allowed from the Base Fund Value – A maximum of 18% of Total Fund Value at the beginning of the Policy year can be withdrawn in that year
- Frequency at which the Payout will be made (Monthly, Quarterly, Half-yearly, Annually)
- Policy Year from which the Payout will be required
- In case you opt for a Payout percentage, the amount paid under this option will be calculated as:

$$\text{(Systematic Withdrawal Percentage in a Policy Year) / (No. of instalments in a Policy Year) } \times \text{ Total Fund Value (including Top-up Fund Value) as on the date of withdrawal.}$$

The payout amount thus withdrawn will be considered as redemption and will be converted into units and deducted from the unit balance of the account.

The deduction of units will be made in the same proportion as the value of total units held across funds at the time of withdrawal.

The following points will apply to the Systematic Withdrawal Option feature:

- > SWO will be in accordance with Partial Withdrawal guidelines
- > All withdrawals made under SWO will be free of charge
- > Minimum amount of withdrawal under SWO will be ₹5000 per withdrawal and maximum withdrawal amount in any year will not exceed 18% of the Total Fund Value at the beginning of the year
- > At any point of time during the Policy Term, the minimum Total Fund Value after Partial Withdrawal/payout under SWO should be at least equal to 125% of the Annualized Premium or 25% of the Single Premium
- > In case the resultant Total Fund Value is lower, the SWO payout for that period will not be made. The Payouts shall resume once the minimum Total Fund Value condition is met
- > You can opt in or out of this facility any time during the Policy Term
- > You can also modify the SWO any time during the Policy Term. The changes will be implemented from the Policy anniversary subsequent to the date of receiving your request

Switching

If you choose the Self-Managed option then you can switch amongst the seven funds anytime during the Policy Term and during the Settlement period (if opted for), depending on your financial priorities and investment outlook. You are entitled for 52 free switches each Policy year and 4 free switches every year during settlement period. Any unused free switches cannot be carried forward to a following year. Subsequent switches, if any, shall be charged at ₹100 per switch.

Premium Redirection

This facility is available only if you have opted for the Self-Managed Option. You can choose to redirect your premiums in which case your future premiums will be allocated to the investment fund(s) of your choice, without changing your existing fund allocation.

Settlement Option

You have the option to receive the Maturity Benefit as a lump sum or as a structured payout using Settlement Option:

- With Settlement Option, you can opt to get payments over a period of one to five years only, starting from the date of maturity
- The payouts may be taken monthly, quarterly, half yearly or yearly, all payable in advance.
- During the settlement period the units will be redeemed systematically based on the settlement period and the frequency of payouts till the fund value lasts.
- The first payout of the settlement option will be made on the date of maturity

The number of payouts will be derived from the table below:

Frequency of Payout	Settlement Period in year(s)				
	1	2	3	4	5
Yearly	1	2	3	4	5
Half-yearly	2	4	6	8	10
Quarterly	4	8	12	16	20
Monthly	12	24	36	48	60

- At any time during the settlement period, you shall have the option to withdraw the entire Fund Value.
- During the settlement period, the investment risk in the investment portfolio is borne by you or the nominee(s)/beneficiary(s), as applicable.
- In case of death of the Life Assured during the settlement period, higher of Total Fund Value as on the date of intimation of death and 105% of the total premiums paid, will be paid.
- Only the Fund Management Charge, mortality charge and switching charge (if applicable) would be levied during the settlement period.
- Loyalty Additions will not be added during this settlement period.
- Fund Switching will be allowed during the settlement period.
- Partial Withdrawals will not be allowed during the settlement period.
- The Settlement Option payouts are subject to extant Income Tax laws. Please consult a tax advisor before choosing the option.

Premium Discontinuance

The Policy will move into discontinuance status on expiry of the Grace Period in case of discontinuance of the Policy due to non-payment of premium.

Discontinuance of Policy during the first five Policy years i.e. during Lock-in Period:

• For Regular/Limited Pay Policy:

If due premium has not been paid within the grace period, the total fund value after deducting the applicable discontinuance charges, shall be credited to the Discontinued Policy Fund and the risk cover and rider benefits (if any) shall cease. The policyholder can revive such Policy by paying all due unpaid premium within a revival period of three years from the date of first unpaid premium. On such discontinuance, the Company shall communicate the status of the Policy within three months of the first unpaid premium to the policyholder and provide the following options:

Option	Description	Treatment
1	Revive the Policy within the revival period of three years from the date of first unpaid premium	<ul style="list-style-type: none"> • In case the policyholder opts to revive but does not revive the Policy during the revival period, the proceeds of the discontinued Policy fund shall be paid to the policyholder at the end of the revival period or end of fifth Policy year, whichever is later, and the Policy will terminate. In respect of revival period ending after the end of the fifth Policy year, the Policy will remain in discontinuance fund till the end of the revival period. At the end of the revival period, the proceeds of the discontinuance fund shall be paid to the policyholder and the Policy shall terminate. • In case the policyholder does not exercise the option as mentioned above, the Policy shall continue without any risk cover and rider benefits (if any) and the Policy fund value will remain invested in discontinued Policy fund. At the end of the fifth Policy year, the proceeds of the discontinuance fund shall be paid to the policyholder and the Policy shall terminate. <p>Fund management charges of the Discontinued Policy Fund will be applicable during this period and no other charges shall be applicable.</p> <p>You may choose to revive the Policy within the revival period in accordance with "Policy Revival" section detailed below.</p>
2	Surrender the Policy	You have the option to surrender the Policy anytime and you will be entitled to the Discontinued Policy Fund Value at the end of fifth Policy year or the date of surrender whichever is later, and the Policy will be terminated.

• For Single Premium Policy:

You have an option to surrender any time during the first five Policy years. On receiving your request for surrender, the fund value after deducting the applicable discontinuance charge, shall be credited to the discontinuance Policy fund and risk cover and rider cover, if any, shall cease. The Policy shall continue to be invested in the Discontinued Policy Fund and the proceeds shall be paid at the end of the first five Policy years. Only Fund Management Charges are applicable during this period. In the event of death of the Life Assured while the Policy is in discontinuance status for Regular/Limited/Single premium Policy, the proceeds from the Discontinued Policy Fund shall be payable immediately as on the date of death and the Policy shall terminate.

Discontinuance of Policy after the first five Policy years i.e. after Lock-in Period:

• For Regular/Limited Pay Policy

If due premium has not been paid within the grace period, the Policy shall be converted into a reduced paid up Policy with the paid-up Sum Assured. The paid-up Sum Assured will be calculated as the Base Sum Assured multiplied by the total number of premiums paid divided by the original number of premiums payable). The Policy shall continue to be in reduced paid up status without rider benefits (if any). All charges as per terms and conditions of the Policy will be deducted during the revival period. The mortality charge will be deducted based on the reduced paid up Sum Assured only.

On such discontinuance the Company shall communicate the status of the Policy within three months of the first unpaid premium to the policyholder and provide the following options as specified in the table below:

Option	Description	Treatment
1	Revive the Policy within the revival period of 3 years	<ul style="list-style-type: none">• In case the policyholder opts to revive the Policy but does not revive the Policy during the revival period, the fund value shall be payable at the end of the revival period and the Policy will terminate.• In case the policyholder does not exercise the option as mentioned above, the Policy shall continue to be in reduced paid up status. At the end of the revival period the fund value shall be payable and the Policy will terminate.
2	Surrender the Policy	The policyholder has the option to surrender the Policy anytime during the revival period and the fund value shall be payable and the Policy will terminate.

In the event of death of the Life Assured during the Revival Period, the following benefit will be payable:

Highest of

- Paid Up Sum Assured net of all "Deductible Partial Withdrawals/Deductible payments under Systematic Withdrawal Option", if any from the Base Fund Value and
- Base Fund Value and
- 105% of the total premiums paid (excluding Top-up premiums) less "Deductible Partial Withdrawals/Deductible payments under Systematic Withdrawal Option" (if any) from the Base Fund Value

In addition to this, provided the policyholder has a Top-up Fund Value, we will also pay for every Top-up premium, the highest of:

- Top-up Sum Assured and
- Top-up Fund Value and
- 105% of the Top-up premium paid

The Policy shall terminate on payment of the Death Benefit.

• For Single Pay Policy:

You have an option to surrender the Policy at any time. Upon receipt of your request for surrender, the fund value as on the date of surrender shall be payable.

Treatment of the Policy while the funds are in the Discontinued Policy Fund

While the funds are in the Discontinued Policy Fund:

- » A Fund Management Charge of 0.50% p.a. of the Discontinued Policy Fund will be made. No other charges will apply.
- » Proceeds of the discontinued policies means the fund value as on the date the Policy was discontinued, after addition of interest computed at the interest rate specified below.
- » The minimum guaranteed interest rate applicable to the Discontinued Fund shall be declared by the Authority from time to time. The current minimum guaranteed interest rate applicable to the Discontinued Fund is 4% per annum.
- » The excess income earned in the Discontinued Policy Fund over and above the minimum guaranteed interest rate shall also be apportioned to the Discontinued Policy Fund.

Fund Name	Investment Objectives	Asset Class	Asset Allocation Range (%)	Target (%)
Discontinued Policy Fund (SFIN: ULIF05703/09/10-DISCPOLF01121)	The objective of the fund is to maintain capital value of the fund at all times and earn a minimum predetermined yield, at the rate determined by the regulator from time to time and maintain sufficient liquidity to meet the pay outs. The fund would predominantly stay invested in money market instruments and short-term securities. Risk appetite of the fund is defined as 'low'.	Money market instruments	0 - 40	30
		Government Securities	60 - 100	70

Surrender

Surrender Value is acquired immediately on payment of the Base Premium.

On surrender of the Policy during the first five Policy years, the Total Fund Value (i.e. Base Fund Value plus Top-up Fund Value), if any, after deduction of applicable Discontinuance Charge, shall be transferred to the Discontinued Policy Fund and risk cover and rider cover, if any, shall cease. The proceeds from the Discontinued Policy Fund will be payable to you at the end of the fifth Policy year or on date of surrender whichever is later. If the Life Assured dies before the payment of the surrender benefit, we will pay the proceeds from Discontinued Policy Fund immediately and terminate the contract.

On surrender after completion of the fifth Policy year, you will be entitled to the Fund Value including Top-up Fund Value, if any. Once a Policy is surrendered, it cannot be reinstated.

Policy Revival

Revival of a Discontinued Policy during Lock-in Period:

- a. The policyholder may revive the policy within the Revival Period of three consecutive complete years from the date of the first unpaid premium.
- b. Where the policyholder revives the Policy, the Policy shall be revived restoring the risk cover, along with the investments made in the Segregated Funds as chosen by the policyholder, out of the Discontinued Fund, less the applicable charges in accordance with the terms and conditions of the Policy.
- c. The rider benefits, if any, can also be revived subject to the Board Approved Underwriting Policy.

d. The Company, at the time of revival:

- i. Shall collect all due and unpaid premiums (including rider premiums, if any) without charging any interest or fee, subject to the Board Approved Underwriting Policy.
- ii. Shall levy Policy Administration Charge as applicable during the Discontinuance period. No other charges shall be levied.
- iii. Shall add back to the fund, the discontinuance charges deducted at the time of discontinuance of the Policy.
- iv. The Loyalty Additions (if any) and Extra Allocation (if any) due but not allocated during the period the Policy was in discontinuance shall be added to Fund Value as on the date of revival.

Revival of a Discontinued Policy after Lock-in Period:

- a. The policyholder may revive the Policy within the Revival Period of three consecutive complete years from the date of the first unpaid premium.
- b. Where the policyholder revives the Policy, the Policy shall be revived restoring the risk cover in accordance with the terms and conditions of the Policy.
- c. The rider benefits, if any, can also be revived subject to the Board Approved Underwriting Policy.
- d. The Company, at the time of revival:
 - i. Shall collect all due and unpaid premiums (including rider premiums, if any) without charging any interest or fee. Rider, if any, may also be revived subject to Board Approved Underwriting Policy.
 - ii. The Loyalty Additions (if any) and Extra Allocation (if any) due but not allocated during the period the Policy was in discontinuance shall be added to Fund Value as on the date of revival.

Fund Value Details

• **Computation of NAV**

The NAV will be computed as per IRDA (Linked Insurance Products) Regulations, 2019.

The NAV for a particular fund shall be computed as: Market Value of investment held by the fund plus the value of current assets less the value of current liabilities and provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before creation/redemption of units), gives the unit price of the fund under consideration.

In case the valuation day falls on a holiday/non-business day, then the exercise will be done on the following working day.

We reserve the right to value less frequently than daily in extreme circumstances, where the value of the assets may be too uncertain. In such circumstances Company may defer valuation of assets for up to 30 days until the Company feels that the certainty as to the value of assets has been resumed. The deferment of the valuation of assets will be with prior consultation with IRDAI.

• **Allocation of units**

The Company applies premiums to allocate units in one or more of the unit linked funds in the proportions which the policyholder specifies. The allotment of units to the policyholders will be done only after the receipt of premium proceeds as stated below;

In case of New Business, units shall only be allocated on the day the proposal is completed and results into a Policy by the application of money towards premium.

In the case of renewal premiums, the premium will be adjusted on the due date, even if it has been received in advance. Renewal premiums received in advance will be kept in the deposit account and will not earn any returns until the renewal premium due date on which the same will be applied to the unit funds.

- **Redemptions**

In respect of valid applications received (e.g. surrender, switching etc.) up to 3.00 p.m. by the Company, the same day's closing unit price shall be applicable. In case of a holiday or non-business day the closing unit price of the next business day shall be applicable.

In respect of valid applications received (e.g. surrender, switching etc.) after 3.00 p.m. by the Company, the closing unit price of the next business day shall be applicable.

The unit price for each segregated fund provided under this product shall be made available to the public in the print media on a daily basis. The unit price will also be displayed in the web portal of the Company.

- **Cancellation of units**

To meet fees and charges (except FMC) and to pay benefits, the Company will cancel the units to meet the amount of the payments which are due. If units are held in more than one Unit Linked Fund, then the Company will cancel the units in each fund to meet the amount of the payment. The value of units cancelled in a particular fund will be in the same proportion as the value of units held in that fund is to the total value of units held across all funds. The units will be cancelled at the prevailing unit price.

The FMC will be priced in the unit price of each Fund on a daily basis.

- **Policy Fund Value**

The value of your Policy fund at any time is the total value of units at that point of time in a segregated fund i.e. total number of units under a Policy multiplied by the Net Asset Value (NAV) per unit of that fund. If you hold units in more than one Unit Linked Fund, then the value of the fund is the total value across all Unit Linked Funds. Note that all Fund Values including Top-up funds are aggregated.

7. Premium payment frequency

The available frequencies of premium payment are yearly, half yearly, quarterly and monthly. Quarterly and monthly frequencies are allowed only if the payment is made electronically. If the monthly frequency is chosen at the time of issuance, first two months premium will be collected at the time of issuance of the Policy. Premium payment frequency can be changed only on Policy anniversaries.

8. Grace period for payment of premiums

There is a grace period of 30 days from the due date for payment of premium. In case of monthly frequency, the grace period is of 15 days. During this period the Policy is considered to be in force with the risk cover as per the terms & conditions of the Policy.

9. How safe is your investment?

Unit Linked Life Insurance products are different from the traditional insurance products and are subject to the following risk factors:

- i. The premium paid in Unit Linked Life Insurance policies are subject to investment risk and other risks associated with capital markets and NAV per unit (unit price) may go up or down based on the performance of the fund and factors influencing the capital markets and the policyholder is responsible for his/her decisions.

- ii. "Reliance Nippon Life Insurance Company Limited" is the name of the Company and "Reliance Nippon Life Prosperity Plus" is only the name of the linked insurance Policy and does not in any way indicate the quality of the Policy, its future prospects or returns.
- iii. The names of the Fund Option(s) do not in any manner indicate the quality of the Fund Option(s) or their future prospects or returns.
- iv. Please understand the associated risks and applicable charges from your insurance advisor or the intermediary or Policy document issued by Reliance Nippon Life Insurance Company Limited.
- v. Investment risk in investment portfolio is borne by the policyholder. There is no assurance that the objectives of the Fund Option(s) shall be achieved.
- vi. NAV per unit (Unit Price) may fluctuate depending on factors and forces affecting the capital markets and the level of interest rates prevailing in the market.
- vii. Past performance of the Fund Options is not indicative of future performance of any of those funds.
- viii. All benefits payable under this Policy are subject to tax laws and other fiscal enactments in effect from time to time. The policyholder is recommended to consult his/her tax advisor.

The Company will value the funds on each day that the financial markets are open. However, the Company may value the funds less frequently in extreme circumstances external to the Company where the value of the asset is too uncertain. In such circumstances the Company may defer the valuation of assets for up to 30 days until the Company feels that certainty to the value of assets has been resumed. The deferment of the valuation of the assets will be with prior approval from IRDAI.

However, the Company reserves the right to change the exposure of all/any fund to money market to 100% in extreme situation external to the Company keeping in view market conditions/political situations/economic situations/war like situations/terror situations. The same will be put back as per the base mandate once the situation has corrected.

Some examples of such circumstances in above sections are:

- When one or more stock exchanges which provide basis for valuation for substantial portion of the assets of the fund are closed otherwise than for ordinary holiday.
- When as a result of political, economic, monetary or any circumstances out of the control of the Company, the disposal of the assets of the fund are not reasonable or would not reasonably be practicable without being detrimental to the interests of the remaining policyholders.
- During periods of extreme market volatility during which surrenders and switches would be detrimental to the interests of the remaining policyholders.
- In the case of natural calamities/strikes/war/civil unrest and riots.
- In the event of any unforeseen accident beyond Company's control or Act of God or disaster that effects the normal functioning of the Company.
- If so directed by IRDAI.

The policyholder will be notified of such a situation if it arises.

10. Free look period

In case you are in disagreement with the terms, features and conditions of this Policy, you may wish to opt out of this plan, by stating the reasons of your disagreement in writing and return the Policy document to the Company within 15 days (30 days if Policy is purchased through Distance Marketing channel) of its receipt, for cancellation. You are requested to take appropriate acknowledgement of your request letter and return of Policy document. In which event, the Company will refund the non-allocated premium plus charges levied by cancellation of units plus fund value at the date of cancellation less (a) proportionate risk premium for the period of cover (b) medical examination costs, if any and (c) stamp duty, along with applicable taxes, duties and cess (as applicable), which has been incurred for issuing the Policy.

A request received by the Company for free look cancellation of the Policy shall be processed and premium refunded within 15 days of receipt of the request.

15. Section 41 of the Insurance Act, 1938, as amended from time to time

- 1) No person shall allow or offer to allow, either directly or indirectly, as an inducement to any person to take or renew or continue an insurance in respect of any kind of risk relating to lives or property in India, any rebate of the whole or part of the commission payable or any rebate of the premium shown on the Policy, nor shall any person taking out or renewing or continuing a Policy accept any rebate, except such rebate as may be allowed in accordance with the published prospectuses or tables of the insurer.
- 2) Any person making default in complying with the provisions of this section shall be liable for a penalty which may extend to ten lakh rupees.

16. Section 45 of the Insurance Act, 1938, as amended from time to time:

- 1) No Policy of life insurance shall be called in question on any ground whatsoever after the expiry of three years from the date of the Policy, i.e., from the date of issuance of the Policy or the date of commencement of risk or the date of revival of the Policy or the date of the rider to the Policy, whichever is later. 2) A Policy of life insurance may be called in question at any time within three years from the date of issuance of the Policy or the date of commencement of risk or the date of revival of the Policy or the date of the rider to the Policy, whichever is later, on the ground of fraud: Provided that the insurer shall have to communicate in writing to the insured or the legal representatives or nominees or assignees of the insured the grounds and materials on which such decision is based. 3) Notwithstanding anything contained in sub-section (2), no insurer shall repudiate a life insurance Policy on the ground of fraud if the insured can prove that the mis-statement of or suppression of a material fact was true to the best of his knowledge and belief or that there was no deliberate intention to suppress the fact or that such mis-statement of or suppression of a material fact are within the knowledge of the insurer: Provided that in case of fraud, the onus of disproving lies upon the beneficiaries, in case the policyholder is not alive. 4) A Policy of life insurance may be called in question at any time within three years from the date of issuance of the Policy or the date of commencement of risk or the date of revival of the Policy or the date of the rider to the Policy, whichever is later, on the ground that any statement of or suppression of a fact material to the expectancy of the life of the insured was incorrectly made in the proposal or other document on the basis of which the Policy was issued or revived or rider issued: Provided that the insurer shall have to communicate in writing to the insured or the legal representatives or nominees or assignees of the insured the grounds and materials on which such decision to repudiate the Policy of life insurance is based: Provided further that in case of repudiation of the Policy on the ground of mis-statement or suppression of a material fact, and not on the ground of fraud, the premiums

collected on the Policy till the date of repudiation shall be paid to the insured or the legal representatives or nominees or assignees of the insured within a period of ninety days from the date of such repudiation. 5) Nothing in this section shall prevent the insurer from calling for proof of age at any time if he is entitled to do so, and no Policy shall be deemed to be called in question merely because the terms of the Policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal.
